

## Sprint 2 activity log

Chaoran Chen

40222628

Task completed:

Task	Duration hours	Details
Team Organization Work	3-4	Schedule meetings; Checking on everyone's task; Add and assign tasks to team member.
Prepared Team Minutes File	1	Created and formatted the team meeting minutes document.
Create continuous pipeline	3-4	Set up a CI/CD pipeline to automate code integration, testing, and deployment. Configured GitHub Actions to run unit tests and linting on every push. Established an automatic build process for deployment to a staging environment. Debugged pipeline errors and ensured smooth execution.
Created Checklist & Logs	3	Compiled and documented essential logs and a checklist for tracking team progress.
