Sprint 3

Activity Log

Resham Pande
40245428

Tasks Completed:

Task	Duration (Hours)	Details
Front-end development	3	Transitioned to with REACT and javascript and the basics of the code for sprint 3
User Stories	2	identified the target users and their specific needs needed for the second sprint. I focused on understanding their goals, pain points, and expectations.
Task Breakdown	3	identified the key steps needed to implement each story and converted them into clear, actionable tasks. I ensured each task was small, specific, and testable. Then, I estimated effort, prioritized based on dependencies, and assigned tasks to the appropriate team members.
Acceptance Tests	1	Created acceptance tests in correspondence to the main tasks for sprint 3
